DETAILED ACTION

Response to Amendment

1. This is in response to the Amendments filed 11/22/2004.
2. Claims 102-126, 154-155, 158-165, 167-175 are currently pending in this application. Claims 153, 156-157, and 166 have been canceled. Claims 172-175 have been newly added.
3. Applicant's election of the trailing electrode having at least a portion that is triangular in shape in the reply filed on 11/22/2004 is acknowledged. However, Applicants are required to specify the shape and position of the trailing and second electrodes. Hence, the Restriction requirement is repeated as follows.

Election/Restrictions

4. Claims 102-126 and 153-171 are generic to a plurality of disclosed patentably distinct species of an ion generator. The election of an ultimate species of configuration, i.e. shape and position of the trailing and second electrodes, defining the generator is required, for search purposes.
5. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.
6. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

Art Unit: 1711

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thao T. Tran whose telephone number is 571-272-1080. The examiner can normally be reached on Monday-Friday, from 8:30 a.m. - 5:00 p.m..
